

IDENTIFICATION TECHNICIAN I

DEFINITION

Under close supervision, processes prisoners and collects and preserves evidence used in the identification and prosecution of criminals.

SUPERVISION RECEIVED/EXERCISED

Receives supervision from a Supervising Identification Technician.
Exercises no supervision.

DISTINGUISHING CHARACTERISTICS

Identification Technician I is the entry level class in the Identification Technician series. Under close supervision, incumbents collect and preserve evidence in the field and at Police headquarters used in the prosecution of criminals, identify persons through fingerprints, and prepare and process criminal identification records. This class is distinguished from Identification Technician II in that the latter is the journey level class in which incumbents perform the full range of duties under a minimum of supervision. Incumbents may be assigned to any shift including nights, weekends, and holidays.
